## RUSH F2k6

The theme for Rush this quarter was Recess: LFS is our playground. Posters were hung around campus, flyers were passed out, and puffy-painted felt AΦΩ were pinned to make rush such a great success. Thanks to everyone that helped out during our rush weeks!

-Stephanie Chow

## INFO NIGHTS/BOWLING RUSH EVENT

The first info night was extremely informational and entertaining. The bowling night afterwards was fun and it was a good chance for the rushees to meet actives. The first info night was a success and there was a good turn out to the bowling night afterwards. I think bowling is a good way to get to know more people in small groups while still being able to meet everyone.

-Ohm Srukhosit

# Alpha Delta Installation

On Oct 8, 2006, there were 54 people that came together to become the Alpha Delta Pledge Class of RhoPi Chapter. After the ceremony and a quick GBM, everyone headed out to the Installation Dinner at CPK. Big hugs to Rho Rho for coming out to watch our F2k6 Installation!!

## \* GAME NIGHT \*

With a turn out of 88 people all crammed into one house for 5 hours, game night was anything short of boring. From the screaming that Taboo generated, to the ridiculous randomness of Cranium and competitive games of Shit head, game night became the perfect place for shy pledges to break out of their shells and meet the actives and alumnus. Hosted at the Moon and Neely residence, it would be hard to forget the heated game of friends, the atrocious actions that dare spoons made both pledges and actives perform and even harder for those who missed this past game night to even think about missing a future game night.

-Josephine Pang

Pledge Retreat was AWESOME! It was a fun filled weekend where everyone had the chance to truly bond with one another, especially during the Electric Fence. Thanks Jeff for being such a GREAT and SUPER pledge trainer! =DD  
-Linda Trinh

Pledge Retreat happens for every pledge class, but it doesn't mean it always the same routine event. Alpha Delta class showed their pride and their spirit by completing all of their events with style and originality. Though our record for electric fence was not the type of record we were striving for, it only shows that, though we handle some things very differently from previous classes, we know how to follow through. It's safe to say that, though Retreat had its fair share of impossibilities and obstacles, we came out on top and never faltered. Some of us even want to do electric fence again...for fun. Delta FORCE!

## PLEDGE RETREAT

# Alpha Delta's SIB REVEALING.....

"After a week's worth of frustration, clues, anonymous instant messages, and confusion the Alpha Delta Pledges finally found who their Bigs were and to what family they belong too. The day consists of more clues, gifts, lots of food, and many exciting games between the five families. Many of the games included family roll calls, a relay race, and water balloon tossing which later turned into tossing people into the ocean. At the end of the day everyone was drained but excited to have new additions to their families. Although we are separated into five families, we are still one Alpha Phi Omega family."

-Kevin Yang

"Pledges finally met their bigs after a much anticipated week of guessing who their big was. After being welcomed into each's family, each family did a roll call and cheer to show their pride and family spirit. Water games turned into a melee of drenching people at the beach, which was good because it was a pretty hot day.

For me, there was too much down time but overall it was good because I finally met my big and had no clue who it was.

-Curtis Hata

Membership did a fantastic job in planning Sib Revealing. Everyone was having fun and the activities were great! =D Sib Revealing was memorable for me and I hope it was for all of you, too! I also want to say thanks to my big for all the awesome gifts =).

-Linda Trinh

# Miramar Air Show

The Miramar Air Show is the largest military air show in the world. Thousands of people come out every year to see planes of all sizes, vendors, great food, and the main attraction, The Blue Angels. Our chapter went out to help the UCI chapter, Rho Rho, to raise money for cystic fibrosis by selling bratwursts that was cooked on the world largest grill. For every bratwurst sold, \$1 was donated to the cystic fibrosis foundation.

-Kevin Yang

“P.I.M.P. \_\_\_\_\_”

I <3 PIMP\_\_ ! Without them ΑΦΩ wouldn't be the same for me. Big mama Loretta always looks out for us babies, and biggie Jeff LY always gets us excited about coming out to events. LiL Belinda always makes you smile and laugh with her spunky personality. And Alyssa with all her energy is our favorite new baby PIMP! :]

-Stephanie Chow
